TRAININGS

Web Developer Bootcamp By Colt Steele

udemy, Online

Feb 2021 - Jun 2021

This was an amazing course by colt Steele, I learnt everything about javascript like modern javascript, html and css. I also got to understand backed development using a javascript framework Express js.

PROJECTS

Image background removal

Nov 2021 - Nov 2021

<http://nameless-beyond-66345.herokuapp.com/>

Here the user has to create an account and he can upload the images and the website will return him the image without a background. Then it is stored in a folder and the link of that image is stored in database. The user can download the image.

IMDB clone Project

Aug 2021 - Aug 2021

<https://github.com/K-Fayaz/IMDB>

This is a very simple app that I built with Node and express with backend support by mongodb. I learnt how to index the models so that enables the searching the query by user in the database. Apart from this I implemented CRUD to create, update, delete.

JustBlog- A simple Blogging website

Aug 2021 - Aug 2021

<https://github.com/K-Fayaz/Just-Blog>

This is a blogging website that I have built with Node and express with backend support by mongoDB. In this app the admin can post the blog. The users can login to comment and like the blog. I got to know how to connect tinymce with node and cloundinary.
